University antiplagiarism system: how to submit a document

A tool to support writing practice

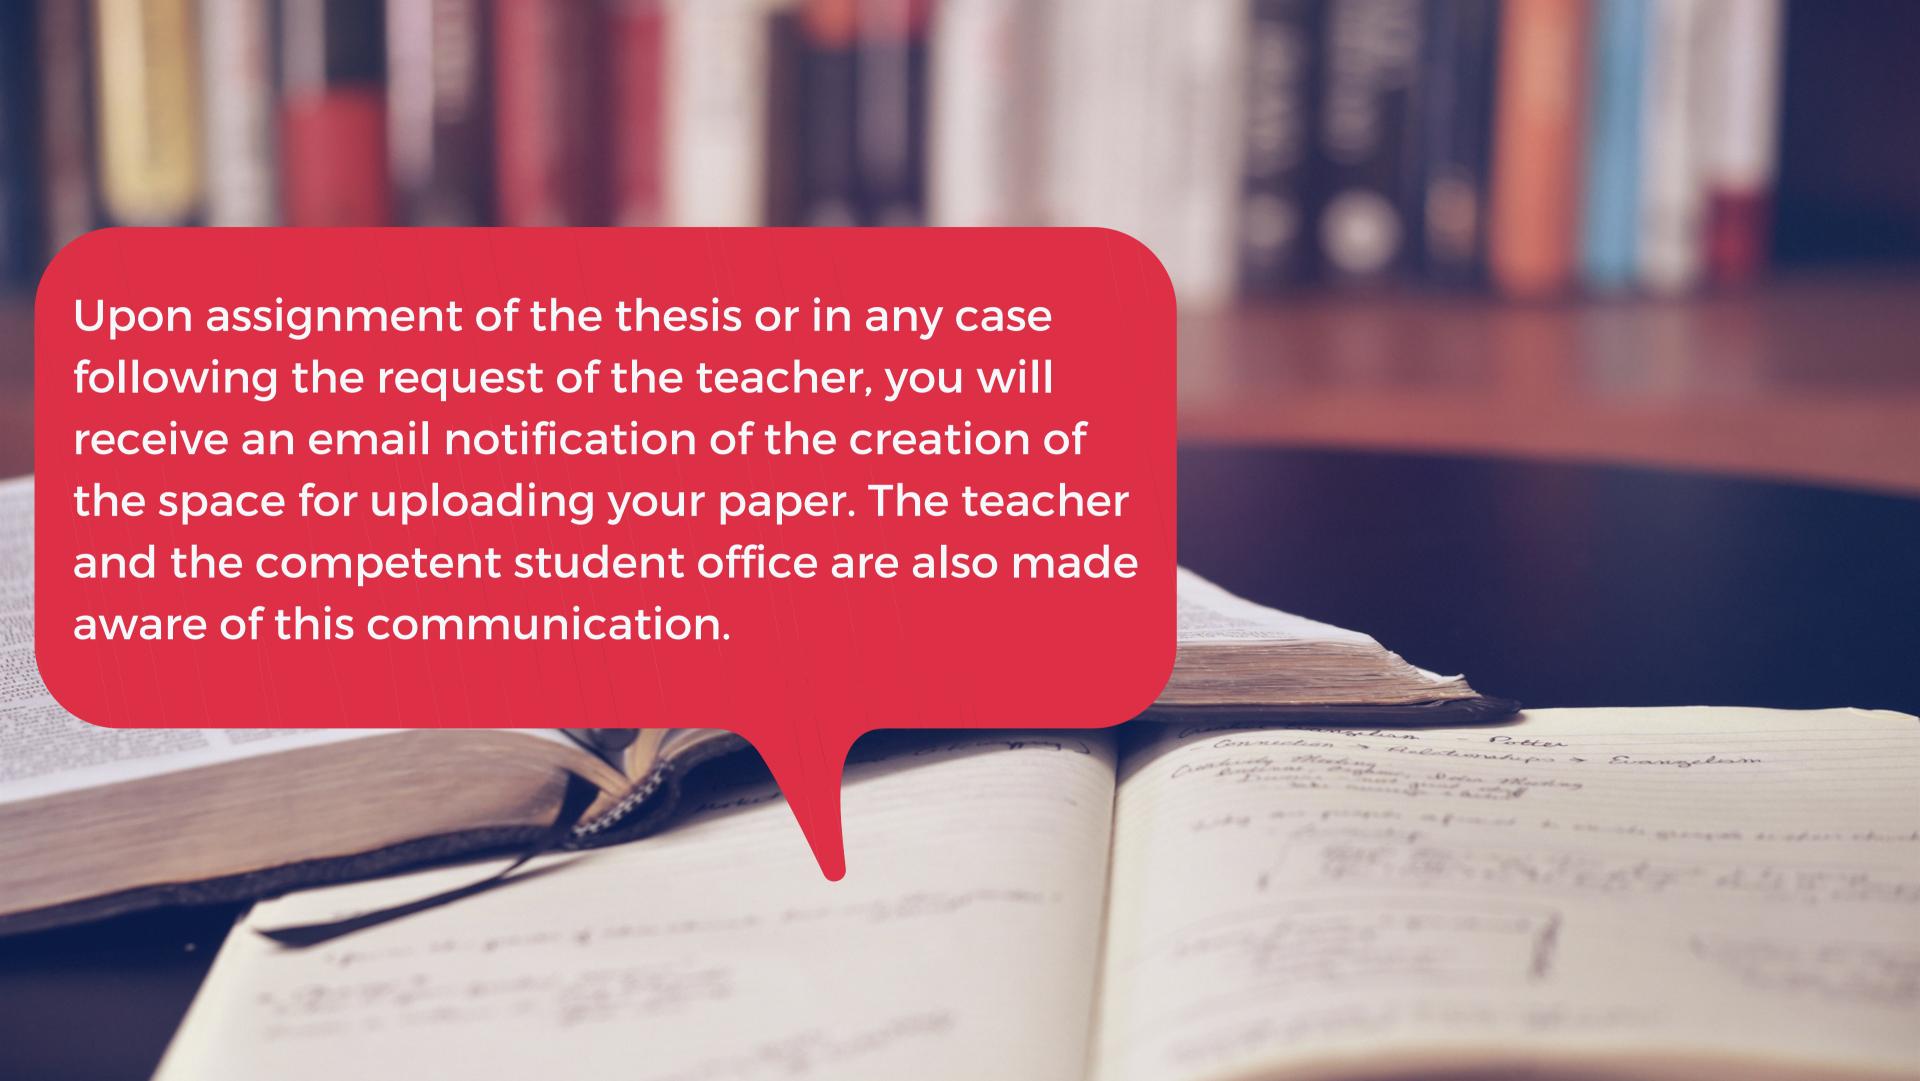

In our University, however, it is not mandatory for everyone and each department regulated independently for the access to the service. However, there are some fundamental guidelines for uploading the document: currently the software is used through the Usienaintegra platform and the student receives instructions for uploading by email.

Normal version and expert version

There are two uploading methods: a) the **normal version**, consisting of a single area from which to proceed with the upload of the final version of the thesis (including the title page, in the format that will be discussed) and b) the **expert version**, consists of 5 different uploading areas where you can insert single chapters or subsequent versions of the same file document for correction during the drafting phase. In this case only the last section, called "Final version", will be used for the analysis generation of the complete "originality report" after the check.

The accepted formats are many, even if usually PDF or word / openoffice files are uploaded

Accepted file types and sizes

Allow any file type

If an assignment is set to allow any file type, Turnitin will accept any file:

- that is less than 100MB;
- · that has a minimum of 20 words; and
- that is less than 800 pages.

File types checked for similarity

If the assignment is set to allow only file types that Turnitin can check for similarity, Turnitin will only accept files that can generate Similarity Reports.

This includes:

HTML
Hangul Word Processor file (.hwp)
Rich text format (.rtf)
Plain text (.txt)

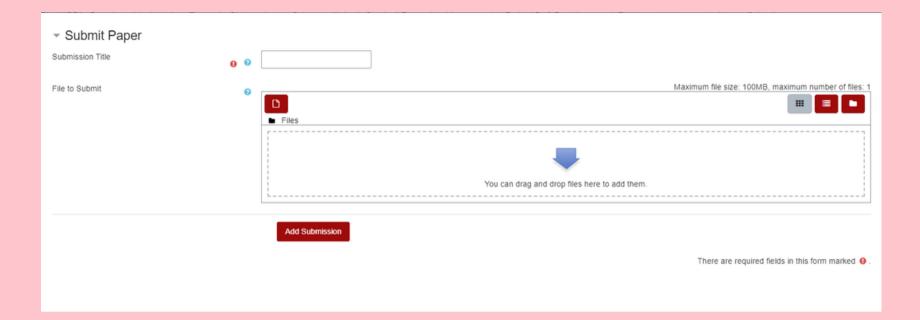

Google Docs via Google Drive™

Microsoft Word® (.doc/.docx)
OpenOffice Text (.odt)
WordPerfect® (.wpd)

Software analysis

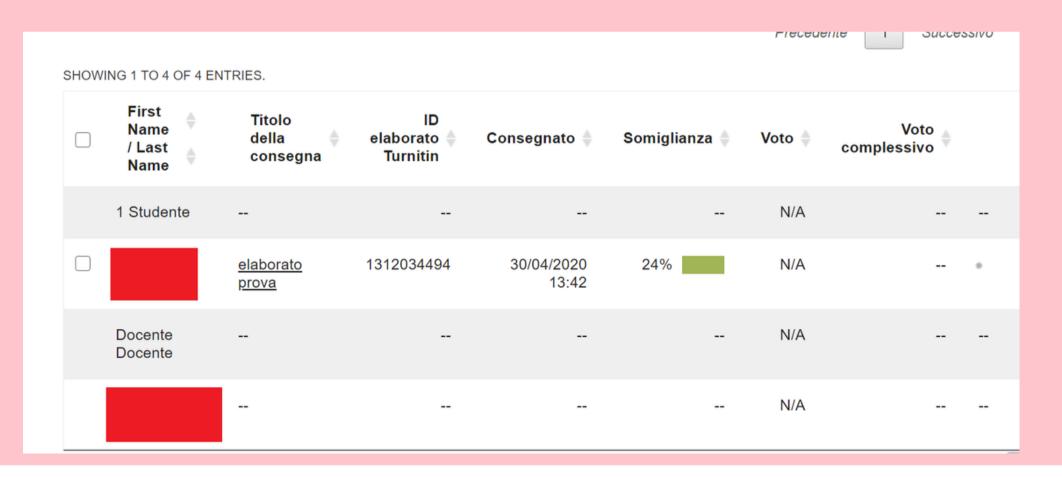

From this moment the software analysis on the whole document starts

Estimated time: 15 minutes-1 hour

Following the analysis, a summary percentage is generated which summarizes the detail of the analysis, visible by clicking on the colored strip.

PLEASE NOTE: Not all departments allow students to view the report. In this case the reference will always be the teacher, to ask for access to the report
